

**AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009
SECTION 1511 CERTIFICATION**

**Port of San Francisco
Pier 45 Drainage Improvements/Herring Water Discharge
Project No.: C-06-6947-110
Agreement No.: 08-313-550**

The authorized representative of the State Water Resources Control Board hereby certifies, and/or affirms that the Pier 45 Drainage Improvements/Herring Water Discharge Project (Project) has received the full review and vetting required by law and that such representative accepts responsibility that the Project is an appropriate use of taxpayer dollars. The following general description is provided in order to comply with Section 1511 of American Recovery and Reinvestment Act of 2009 (ARRA):

- Project description: The Project is commonly known as Pier 45 Drainage Improvements/Herring Water Discharge. The Project involves the installation of a pumping manifold that would allow herring boats moored along the north end of Pier 45 to tie-in and discharge herring gurry to a sanitary sewer pump station located between the two Pier 45 fish processing sheds. In addition, a new storm water collection system will be installed along the north deck of Pier 45 to direct all storm water runoff from this area to the City of San Francisco sewer system at the Pier 45 pump station. Drainage improvements along the Pier 45 north pier deck will provide water quality enhancements year round. The Project also includes upgrades to the existing sanitary sewer pump station at Pier 45 in order to create capacity for additional flows.
- Estimated total cost of the Project: one million, eight hundred ten thousand dollars and no cents (\$1,810,000).
- Type of assistance: full principal forgiveness
- Estimated amount of ARRA funds to be used: one million, five hundred forty-eight thousand, six hundred forty-five dollars and no cents (\$1,548,645).
